For The Professional Needs

PE-Design Next has enhanced productivity features making it ideal for small business use.

Link Function allows you link up-to four compatible embroidery machines and to send data to each machine.

Link Function

Brother PR1000/PR650 Ver. 2 can use the Link Function and can receive up to 100 data from the computer.
In addition, two functions below can be used in combination.

200 Built-in Template Designs

200 Built-in Template Designs.

Name Drop

Great for making uniforms. You can embroider patterns by replacing the name parts.
(You can create up to 500 name data.)
