Touching textile

Deko-2000

Professional curtain ironing table for fast and efficient ironing of large and heavy curtains.

- Equipped with a large, 280 x 60 cm, electrically heated ironing surface.
- Homogeneous exhaust over the complete surface by 2 powerful integrated turbines.
- Rotating ironing surface, which can be moved forwards or backwards by means of a foot pedal, for the effortless transport of an ironed curtain.
- The ergonomic construction of an ironing surface under a 6-degree angle and a weightless hanging/guiding of the iron prevent fatigue and RSI.
- Fabric troughs at the front and back of the table prevent contamination of the curtain by contact with the ground.
- The installation is completed with iron hanging device, balancer for the weight compensation and ironing surface fluorescent tube lighting.

Eisenkolb has developed into the market leader in the curtain processing industry. As a provider of total solutions, we offer you an unprecedented expertise and supporting service based on technically superior machines and materials. That is how Eisenkolb contributes to the optimization of the primary processes in the textile related industries. Customer-oriented, starting from feeling for textile.
