Touching textile

Fanfolder

Fully automatic vertical curtain ironing and finishing machine.

- Advanced curtain finishing machine to obtain beautiful, regular pleats which retain their shape at all times; the finishing touch in the production process.
- Increases the quality of the final product, whereas the decorator of the curtains gains time.
- Additional steam pulse facility to remove creases and to steam the lower hem.
- Temperature adjustable between 150 and 230 °C at an ironing/shaping speed between 0.7 and 6.5 m/min.
- Pneumatic control of the ironing/shaping section during the opening and closing.
- Powerful, time-controlled exhaust for a perfect, dry curtain after the steaming/shaping cycle.
- Exchangeable rack providing space for 36 pleats.
- 5 Different mounting heights.
- Strong 16 kW steam generator.
- Machine dimensions (hwx) 440 x 270 cm.

1. Pneumatic forming section.

2. Interchangeable hanging system.
